Welcome to the SIMS 2020 Autumn Release

Please read these notes carefully before installing or upgrading your software. Do not attempt any installation or upgrade without first making a fully restorable backup of your SIMS system.

Capita SIMS has made this release note available in PDF and Word formats. To take full advantage of the functionality available in this release note (e.g. links to handbooks and video tutorials), you must use the PDF version. Capita SIMS cannot be held responsible for any changes, errors or omissions resulting from subsequent editing of the supplied document.

Important Information – please read before upgrading

If you are performing a SIMS upgrade spanning more than one release, it is essential that you read the release note associated with each version.

Important Information for Schools in England

At the time this release note was produced, we had not yet received the validation and summary report files from the DfE for School Census Spring 2021. Schools should not provide their Return file to the DfE until they have imported a fileset that includes the official DfE validation and summary report files.

Upgrading using SOLUS

The SIMS Online Update Service (SOLUS) enables you to download and run SIMS releases and patches via the Internet. This is achieved using **SOLUS3**.

For instructions on carrying out an upgrade with **SOLUS3**, please refer to the *SOLUS3 for Schools* or the *SOLUS3 for Local Authorities* handbook.

Support for SQL Server

SIMS, FMS, Discover, Partnership Xchange, SOLUS and InTouch run on SQL Server 2012, SQL Server 2014 and SQL Server 2016. For more information on support for SQL Server and Windows environments, please refer to the *SIMS Technical Roadmap* on the Capita Software Support Portal (https://support.capitasoftware.com/csm?id=kb_article_view&sysparm_article=KB0035434).

B2B

If you use B2B, and you want the SQL Server service to be configured to run as a Domain account instead of the built-in LocalSystem account on Windows 2008 R2 or Windows 2012 Server, a separate patch can be run to enable this functionality. This patch is available from your Local Support Unit (Patch 20419) and it must be applied to your SIMS database by a user with System Administrator permissions.

General

If your school uses both Fees Billing and FMS, then SIMS and FMS must be upgraded at the same time.

Important Information for Windows 8 and Windows Server 2012 Users

If you are running SIMS on a Windows 8 or Windows Server 2012 workstation, you may encounter difficulties when attempting to open PDF files in SIMS. This is caused by Windows Reader being the default program used to open PDF files.

To resolve this issue, you must first ensure that Adobe Reader 10 or later is installed.

Next, you will need to associate Adobe Reader with all PDF files. From the Taskbar, click **File Explorer**, click **Computer** in the panel on the left-hand side of the page then from the Menu Bar, select **Computer | Open Control Panel**. Click **Programs | Default Programs | Associate a file type or protocol with a program**. In the **Extensions** list, scroll down to and click the **.pdf** item then click the **Change program** button. Click **Adobe Reader** then click the **Close** button.

Release Notes

Each functional area displays a set of icons, which indicate the school type(s) to which the content relates.

EP	Content applicable to English Primary and Northern Ireland Primary schools
ES	Content applicable to English Secondary and Northern Ireland Secondary schools
WP	Content applicable to Welsh Primary schools
WS	Content applicable to Welsh Secondary schools
IN	Content applicable to Independent schools

If you have any comments or questions regarding any SIMS user documentation, please email us (publications@capita.com).

Backing up SIMS and FMS

Where SIMS Personnel is used to generate Salary Projections in FMS, SIMS and FMS backups should be carried out at the same time. If one of the databases needs to be restored, the other database must be restored to the same point, i.e. if you restore the SIMS database, you must restore the FMS database to the same point and vice versa.

IMPORTANT NOTE: Backups are no longer zipped, because of the number of issues caused by zipping backup files. Recent operating systems now allow the use of compressed folders, which are recommended for automatically compressing backups. Please refer to your operating system documentation for instructions on applying compression to a folder.

Important Information Regarding the Upgrade of SIMS and Discover

IMPORTANT NOTE: You must upgrade to the SIMS 2020 Autumn Release before upgrading Discover. If you upgrade Discover before upgrading SIMS, data will not be transferred between the SIMS and Discover databases until SIMS has been upgraded.

Auto-Deployment of SIMS and Discover

If SOLUS3 auto-deployment is enabled for Discover, we recommend that the settings for Discover auto-deployment are set to start later than the SIMS auto-deployment start time plus the timeout.

Products	Between	and	Mon	Tue	Wed	Thu	Fri	Sat	Sun
<input checked="" type="checkbox"/> FMS	Between	11:00 and 23:00	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<input checked="" type="checkbox"/> SIMS	Between	11:00 and 23:00	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<input checked="" type="checkbox"/> SIMS Discover	Between	13:00 and 23:00	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<input checked="" type="checkbox"/> SOLUS	Between	11:00 and 23:00	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

If the times are not set like this, and the Discover deployment starts before the SIMS deployment, then the data transfer between SIMS and Discover will not work until the SIMS upgrade is completed.

Important Information Regarding SIMS Documentation

The SIMS [Documentation Centre](#) is accessed by clicking the [Documentation](#) button on the SIMS [Home Page](#).

User documentation is arranged by output type (handbook, tutorial, QRS, etc.) and then by functional area. It is also arranged by role (e.g. Teacher, Administrator, Returns Manager, etc.). Frequently Asked Questions and Troubleshooting sections are also available.

User documentation that is accessible via the SIMS [Documentation Centre](#) is hosted on the web. Help files are delivered to the `\\Program Files\\SIMS\\SIMS .net` folder on each SIMS workstation.

NOTE: If you wish to access the latest user documentation for the SIMS 2020 Autumn Release without logging into SIMS, the [Documentation Centre](#) is accessible via the Capita Software Support Portal (https://support.capitasoftware.com/csm?id=kb_article_view&sysparm_article=KB0036819).

When a user logs into SIMS for the first time following an upgrade, a What's New page relevant to your school phase is provided.

For schools in Wales, the following key documents are provided in the Welsh language:

- What's New page
- Release note – Welsh Primary schools
- Release note – Welsh Secondary schools
- End of Key Stage Data Processing (Wales) handbook.

We would welcome any feedback you have on the SIMS [Documentation Centre](#). If you have any comments, please email the SIMS Publications team (publications@capita.com).

How you access the Documentation Centres from within the various products has not changed:

- In SIMS 7, click the [Documentation](#) button on the SIMS [Home Page](#) (via [Focus | Home Page](#))
- In FMS, select [Help | FMS Documentation](#)
- In Discover, click the [?](#) button
- In Satellite products, click the [Help](#) link.

Alternatively, visit the SIMS User Documentation Hub (https://support.capitasoftware.com/csm?id=kb_article_view&sysparm_article=KB0037321), where you can access our range of Documentation Centres.

You do not have to log in to the Capita Software Support Portal to access user documentation.

If you have any comments or questions regarding any SIMS user documentation, please email the SIMS Publications team (publications@capita.com). Alternatively, you can provide feedback on each Documentation Centre resource using the [Helpful?](#) and [Rate this article](#) functions. When giving feedback, please provide enough information for us to locate and investigate the issue.

Important information about using the SIMS Documentation Centre

- You might encounter issues when attempting to open any New Feature videos or Tutorials whereby you are asked to install the required version of Flash Player and/or an on-screen dialog suggests that Online Help content cannot be displayed. More information on these issues is available (<http://helpx.adobe.com/acrobat/kb/known-issues-acrobat-xi-reader.html>). These issues can be resolved by downloading the latest version of Flash Player (<https://helpx.adobe.com/flash-player.html>).
- If you are running SIMS on a Windows 8 or Windows Server 2012 workstation, you may encounter difficulties when you first log into SIMS after a SIMS upgrade because the What's New page is displayed automatically and cannot be closed easily. This is caused by Windows Reader being the default program used to open PDF files. To resolve this issue, you must first ensure that Adobe Reader 10 or later is installed.

Next, you will need to associate Adobe Reader with all PDF files. From the Taskbar, click [File Explorer](#), click [Computer](#) in the panel on the left-hand side of the page then from the Menu Bar, select [Computer | Open Control Panel](#). Click [Programs | Default Programs | Associate a file type or protocol with a program](#). In the [Extensions](#) list, scroll down to and click the [.pdf](#) item then click the [Change program](#) button. Click [Adobe Reader](#) then click the [Close](#) button.
- If Google Chrome is your default Web browser, you must download PDF files instead of opening them in Chrome to ensure that PDF files display correctly. This is achieved by entering [chrome://settings](#) in the Address Bar then pressing [Enter](#). Scroll to the bottom of the page and click [Advanced](#). In the [Privacy and security](#) section, click [Content settings](#). Scroll towards the bottom of the list, click [PDF documents](#) and move the [Download PDF files instead of automatically opening them in Chrome](#) slider to the on position.

If you require assistance with this or any other issue you encounter when attempting to access user documentation, please contact the SIMS Publications team (publications@capita.com).

Where to Find More Information?

Via SIMS...

For the software handbooks, navigate to the SIMS [Home Page](#), then click the [Documentation](#) button to display the SIMS [Documentation Centre](#).

Via the Capita Software Support Portal...

User documentation is also available from the Capita Software Support Portal (<https://capitaswprod.service-now.com/csm>).

If you are unable to obtain the required handbook using any of these methods, please email us (publications@capita.com) and we will be pleased to send a copy to you.

Permissions

The permissions spreadsheet, which lists all permissions relating to SIMS 7.196, is available from the [Documentation Centre](#). To access the SIMS [Documentation Centre](#), click the [Documentation](#) button on the SIMS [Home Page](#).

In the Capita Software Support Portal, open the 7.196 SIMS Permissions Spreadsheet (https://support.capitasoftware.com/csm?id=kb_article_view&sysparm_article=KB0041224).

Compatibility between One and SIMS

To be confirmed.

Version Support for FMS

The FMS support arrangements depend on the supported versions of SIMS where Personnel Links is being used. Support for FMS is detailed in the following table.

Release	SIMS Version	FMS Version	FMS with Personnel Links/Equipment Register	FMS without Personnel Links/Equipment Register
Autumn 2020	7.196	6.196	Supported	Supported
Summer 2020	7.194	6.194	Supported	Supported
Spring 2020	7.192	6.192	Not supported	Supported

NOTE: FMS 6.196 has been tested against SQL Server 2012, 2014 and 2016.

Important Information about Self-Hosted SIMS Learning Gateway

Support for self-hosted SIMS Learning Gateway (SLG) ceased at the end of March 2020.

From 1 April 2020, schools have been able to use their SLG installation for a limited period. However, all functionality will be removed in a future release.

Capita ESS has provided a suite of apps to replace the functionality of SLG:

- SIMS Parent/Student (<https://www.capita-sims.co.uk/products-and-services/sims-parent-app>)
- SIMS Teacher app (<https://www.capita-sims.co.uk/products-and-services/sims-teacher-app>)
- SIMS ID (<https://www.capita-sims.co.uk/products-and-services/sims-id>).

To discuss moving to these apps, please contact your SIMS Account Manager. Alternatively, contact us (info@capita-sims.co.uk).

Supported SIMS Versions with PX Autumn Release

The SIMS PX Agent should be upgraded to the PX 2020 Autumn Release immediately after, or in conjunction with, upgrading to the SIMS 2020 Autumn Release.

IMPORTANT NOTE: If you install the SIMS 2020 Autumn Release (SIMS 7.196) and continue to run an older release of the PX Agent, this is not guaranteed to work and is therefore not supported.

- Age at Date is 31/08/2020.

Free School Meal Transitional Protection (FSM TP) Effective Date

The recently introduced **FSM Transitional Protection** check box now has a corresponding read-only **Effective Date** field. This is used to identify whether FSM TP applies on census day.

The Pupil Basic Details Report has been updated to reflect whether the **FSM Transitional Protection** check box is selected on census day, by displaying a value of **true** or **false** in the **FSM Transitional Protection** column.

Class Details Report

The Class Details report has been updated to display two additional columns:

- **Size Type**
- **Class Size Exception Reasons.**

Reporting

No new or updated predefined reports are delivered as part of the SIMS 2020 Autumn Release, meaning the most recent report definition file is **PreDefined_Reports_v7194.RptDef**. This file was delivered as part of the SIMS 2020 Summer Release. If you did not import this file in Summer 2020, you can still do so once you have upgraded to Autumn 2020. To import the file, select **Reports | Import**, then navigate to and select **PreDefined_Reports_v7194.RptDef** (typically found in **C:\Program Files (x86)\SIMS\SIMS .net**). Once imported, the reports are available to all users with the appropriate permissions.

If you imported this file after upgrading to the Summer 2020, there is no need to import it again.

- Learner Support collected from 01/08/2020 to 21/01/2021.

Recording and Collecting Attendance Information

Not applicable to Nursery schools

For schools using Attendance, data will now be collected on all categories of school attendance, rather than just absence.

For schools that do not use Attendance, it is now possible to record the following information:

- Total number of sessions attending approved educational activity (T AEA Sessions)
- Total number of sessions unable to attend due to exceptional circumstances (T Excep Sessions)
- Total number of sessions unable to attend due to Coronavirus (T Corona Sessions).

Change to Detail Reports

Not applicable to Nursery schools

The Exclusions Detail report has been updated to display up to three exclusion reasons.

Class Size Exceptions

Applicable to Primary and All-Through schools only

To highlight classes that require you to enter the reason for the class size exception manually, the class name is now initially displayed in bold and with a yellow background.

Running the School Census During an Exams Embargo Period

Applicable to Secondary, All-Through and PRUs only

For schools with a November exams season, it is now possible for the School Census to be run during an exams embargo period.

New Features

EP ES WP WS IN

Validation of Addresses using Ordnance Survey Data

Applicable to schools in England and Wales only

Throughout SIMS, addresses are now validated against Ordnance Survey data from January 2020.

Enhancements to the Personal Learning Plan (PLP)

Applicable to schools in Northern Ireland with the PLP licence

Reports | PLP

Focus | Pupil (or Student) | Special Educational Needs – Personal Learning Plan tab

To enable the DE to assess the current state of PLPs and supporting provisions made for pupil/students with special educational needs, the following new reports are available:

- Consent to Share PLP Report – details the consent to share PLP data for each individual pupil/student in a number of specified scenarios.
- Phase Summary Report – a list of pupil/students with special educational needs, together with details of their current PLP and phase.
- PLP Summary Report – a summary count of pupil/students with special educational needs that have a PLP and or phases, and those without a PLP.
- SpEP Outcome Report – a list of pupil/students with special educational needs that have internal or external provision and any outcome of that provision.

The following enhancements have also been provided:

- The **Consent** panel has been re-purposed in line with the NI Department Education specification. All data previously recorded has been deleted but can be re-entered, if required. The previous Consent lookups have also been removed. It is still possible to record, amend and remove data in the **Consent** panel.

- The following changes have been made to the **Consent** panel:
 - The **Change Log** now reflects the new fields in the **Consent** panel.
 - The new **Consent** panel is now displayed in the non-editable PLP report and in any snapshots generated.
- The following screen labels are now displayed throughout PLP:
 - Child** has been renamed **Pupil** (where the label is not a statutory requirement).
 - SEP** has been renamed **SpEP**.
 - Special Education Provision – Internal** has been renamed **Special Educational Provision – Internal**
 - Special Education Provision – External** has been renamed **Special Educational Provision – External**.
- The recording of the **Evaluation Date** in the **Phases** panel is now mandatory, with associated validations.

Before saving a PLP record, it is now mandatory, with associated validations, to specify the **PLP Start Date** and **PLP End Date**. This enables an individual PLP date range to be specified, e.g. per academic year. The **PLP Start Date** and **PLP End Date** are displayed as read-only fields in the summary list. Any changes made to these dates can be viewed in the **Change Log** and the dates are now captured in any snapshots taken of the pupil/student's PLP record.

SIMS ID

EP ES WP WS IN

SIMS ID enables a single login point for multiple pieces of software. It works by synchronising key user data between SIMS and SIMS ID, enabling a Single Sign On (SSO) experience for pupil/students, staff and parents. Accounts, groups and timetable data are synchronised between SIMS and SIMS ID, with both administrators and users accessing SIMS ID as their go to point entry for local and online services.

- **SIMS ID Light** manages users in Cloud Services such as Hosted SIMS, Office 365 and Google.
- **SIMS ID Standard** manages users in Local Services such as Active Directory, as well as Cloud Services where required.

SIMS ID does not form part of the SIMS 2020 Autumn Release. For more information, please visit the SIMS ID product page on the Capita SIMS website (<http://www.capita-sims.co.uk/simsid>).

SIMS Services Manager

EP ES WP WS IN

The SIMS 2020 Autumn Release does not include an update to SIMS Services Manager and it does not provide the facility to install the product.

If SSM is not currently installed, the latest version is available from the *Useful Documents and Links* section of the *SIMS 7 Release Information* page on the Capita Software Support Portal (https://support.capitasoftware.com/csm?id=kb_article_view&sysparm_article=KB0035066).

The current version ensures compatibility between SIMS and SSM, as well as products that make use of SSM.

For customers that centrally host SSM, please refer to the most recent manual SSM update, which is available from the *Useful Documents and Links* section of the *SIMS 7 Release Information* page on the Capita Software Support Portal (https://support.capitasoftware.com/csm?id=kb_article_view&sysparm_article=KB0035066).
